

JUSTINIANO TAGARDA

SENIOR .NET BACKEND & FULL-STACK DEVELOPER

justintagarda@gmail.com (+63) 927-380-0613 Remote (UTC+8)
www.linkedin.com/in/justintagarda github.com/JustinTagarda
Open to full-time remote senior .NET/backend or full-stack opportunities.

Portfolio: www.justintagarda.com

PROFESSIONAL SUMMARY

Senior .NET developer with extensive experience building and supporting production APIs, SQL-backed business systems, internal platforms, and customer portals. Backend-first in C#, .NET, ASP.NET, and SQL Server, with full-stack delivery experience using React, Next.js, and TypeScript. Skilled at translating business requirements into maintainable software and supporting it through deployment, troubleshooting, and ongoing operations.

WORK EXPERIENCE

Independent Professional Development

Independent

Feb 2026 - Present

- Focused on independent product development, strengthening existing .NET and full-stack capabilities, learning new technologies, and preparing for the next long-term full-time role.

Backend Developer - ASP.NET Framework & SQL Server

Drizzio / Digital Entrepreneur LLC - USA (Remote)

Nov 2024 - Jan 2026

- Improved the .NET backend codebase and strengthened data bindings between backend services and frontend pages.
- Delivered a Twilio communications dashboard across backend and frontend layers, giving support, operations staff, and company leadership visual reporting on SMS and email delivery status, failures, and client communication activity.
- Led production migration of websites, services, and SQL Server from Windows Server 2022 to Windows Server 2025, completing cutover and retiring legacy servers.
- Configured IIS, SQL Server, and dependent services; monitored production infrastructure and provided prompt incident support during downtime.

Freelance Software Developer

Independent

Jan 2021 - Oct 2024

- Shipped production desktop, web, and cross-platform applications through Microsoft Store, Google Play, and hosted web deployments.
- Built WPF/.NET 10 products for local transcription, speaker diarization, neural TTS, network-camera discovery, media streaming, recording, and offline AI workflows.
- Delivered cross-platform Flutter applications using SQLite, OCR, ONNX inference, native platform integrations, and optional cloud synchronization.
- Built React/Next.js applications with Supabase/PostgreSQL RLS, cloud AI, OCR/TTS, role-based collaboration, complex business calculations, and audit history.

IT Manager

GEDAC Electric Company - Jeddah, Saudi Arabia

Jan 2015 - Feb 2020

- Promoted to IT Manager to supervise IT staff responsible for hardware, network maintenance, and employee technical support.
- Owned monitoring, maintenance, and rapid downtime support for company-wide applications and infrastructure serving the head office, Saudi regional branches, and international sales offices.
- Established and administered core infrastructure including SQL Server, IIS, file-sharing, virtual machines, and network services across departments.

.NET Developer / System Administrator

GEDAC Electric Company - Jeddah, Saudi Arabia

Jun 2007 - Dec 2014

- Solely designed and developed C#/.NET Framework WinForms applications for inventory, projects, engineering, procurement, sales, operations, and management reporting, deployed through ClickOnce.
- Modernized the legacy DOS-based inventory system into a customized Windows application, completing the transition and decommissioning the former platform.
- Built the company website, gedac.com, and an ASP.NET Web Forms customer portal for project-status inquiries, client messaging, feedback, and document sharing with sales and engineering teams.

Computer Programmer

Al Salem Kitchen Company - Jeddah, Saudi Arabia

Jun 1999 - Aug 2006

- Developed a company-wide inventory management system in Microsoft Access to improve tracking and internal processes.
- Maintained internal software, reporting tools, and LAN infrastructure across offices, factories, and warehouses.
- Provided systems, hardware, and network troubleshooting across departments.

SKILLS

- Core capabilities for backend systems, SQL-backed business workflows, modern frontend interfaces, deployment, and production support.
- Core Backend:** C#, .NET 10, ASP.NET Core, ASP.NET Framework, REST APIs, API integrations, SQL Server, Entity Framework Core
 - Web & Cloud:** React 19, Next.js 16, TypeScript, Supabase, PostgreSQL, RLS/RPC, OAuth, JWT, RBAC, Vertex AI, Gemini
 - Cross-platform & Desktop:** Flutter, Dart, WPF, Kotlin, C++/WinRT, SQLite, MSIX
 - Local AI & Media:** ONNX Runtime, whisper.cpp, pyannote, OCR/TTS, RTSP/ONVIF, LibVLCSharp
 - Delivery & Quality:** IIS, Windows Server, Docker, Git, GitHub, GitHub Actions, Firebase Hosting, AI-assisted development, human-reviewed delivery, xUnit, Vitest

EDUCATION

BS Commerce major in Accounting

Xavier University College - Cagayan de Oro City, Philippines
